I am a problem solver with independent research abilities.

I have several years of experience working on a variety of projects, including those related to multiple media, accounting and finance, and business management tools.

Technical skills:

- Back-end: C# MVC .NET framework (ASP.NET and Xamarin)
- Front-end: VueJS / ReactJS framework
- Web technology: HTML5, JS ES6 / jQuery / Bootstrap , CSS3 / SCSS
- Database: SQL server
- Testing tool: NUnit and Selenium(extension)

Skills:

- Critical thinking, tactic planning, independent researching, and strong problem-solving.
- Development tools, such as Jira and Confluence.
- Communication and collaboration with the team.

I am eager to learn new technologies and concepts in order to prepare myself for upcoming challenges in my future career path.
