I am a resourceful problem solver with strong independent research abilities. Over the years, I have gained valuable experience working on a diverse range of projects, including those related to multi media, accounting and finance, and business management tools.

Technical skills:

- Back-end: C# MVC .NET framework (ASP.NET and Xamarin)
- Front-end: VueJS / ReactJS framework, TypeScript, Telerik
- Web technology: HTML5, JavaScript/ jQuery / Bootstrap , CSS3 / SASS
- Database: Microsoft SQL Server
- Testing tool: NUnit and Selenium(extension)
- DevOps: Azure

Skills:

- Critical thinking, tactic planning, independent researching, and strong problem-solving.
- Experience with development tools such as Jira and Confluence.
- Effective communication and collaboration with team members.

I am eager to learn new technologies and concepts in order to prepare myself for upcoming challenges in my future career path.
